Daniel Peterseim - University of Augsburg, Germany

Talk title	Title to be confirmed
Biography	Daniel Peterseim holds the Chair for Computational Mathematics at the University of Augsburg, Germany. He was previously a full professor for numerical simulation at the University of Bonn. He received a Ph.D. in Mathematics from the University of Zurich (2007) and a Habilitation in Mathematics from the Humboldt-Universität zu Berlin. His research covers all aspects of computational partial differential equations with applications in engineering and physics. Prof. Peterseim is most well known for his contributions in the area of computational multiscale methods. He is a recipient of the ERC consolidator grant (2019).
