

The **International Conference FORM and FORCE 2019** will be organized on **7-10 October 2019** in **Barcelona, Spain**.

FORM and FORCE 2019 incorporates:

- the **IASS 60th Anniversary Symposium (IASS SYMPOSIUM 2019)** and
- the **9th International Conference on Textile Composites and Inflatable Structures (STRUCTURAL MEMBRANES 2019)**

Following the customary celebration of the IASS Symposium every ten years in Spain and the Structural Membranes Conference every four years in Barcelona, the organizers have found an outstanding opportunity to merge both communities into a joint international conference that aims to provide a forum for state-of-the-art contributions and fruitful discussion in the broad fields of shell, spatial, tension and inflatable structures.

The city of Barcelona offers a privileged canvas for this joint scientific-technical meeting, as it gathers a large number of outstanding historical and contemporary spatial structures, as well as world-class cultural and recreational attractions.

The conference will cover all aspects related to material, design, computation, construction, maintenance, history, environmental impact and sustainability of shell, spatial, tension and inflatable structures in all fields of application.

The Local Organising Committee of FORM&FORCE 2019 wish to encourage you to consider exhibiting at or sponsoring this event, and look forward to confirming your participation and welcoming you to Barcelona.
